Rotary are giving the club \$10,000.00 which is down from previous years but it above the formula for what they usually use to work out the amount that goes to the club.
- **New SIV Rules and Regulations** – There have been a few changes to SIV regulations including fines. Below are the new regulations, it is **your** responsibility to ensure you know and understand all SIV regulations.  
 SIVS Matters (Special Interest Vehicle Scheme)  
<https://www.qld.gov.au/transport/registration/fees/concession/special-interest>  
**(a) Continuing Club Membership Mandatory**

The biggest change commenced on 1 September with the new Regulation which provides for SIVS registration. The SIVS Guidelines include conditions issued under that Regulation.

Previously, it was only necessary to belong to an Incorporated Vehicle Club (or Association) to obtain SIVS registration for the first time, but there was no legal obligation to remain a member thereafter. Clubs were often frustrated by people joining to access SIVS, but then never renewing.

**From now on, it is a condition of SIVS registration that the vehicle operator must belong to an Incorporated Vehicle Club. There are 2 new provisions to note:**

**(i) The SIVS Concession Registration must be removed if the registered operator is no longer a current member of an incorporated car club or association , and**

**(ii) Use of the vehicle while not a member (or in contravention of any other SIVS restriction eg driving to and from work) now carries a penalty of up to \$2757 for vehicles up to 4.5 tonnes 2 and \$8271 for heavier vehicles.**

The only exception is where an owner lives in a remote area or is unable to access an appropriate club, they may be eligible for an exemption from the club membership requirement .

**The responsibility is on individuals to comply, not clubs**, but if you are aware of former members who are not members of other clubs using their vehicles illegally a quiet word might be appropriate. It is in all our interests to try to prevent abuse of the generous concession, or the right might be taken away.

That said, Clubs are not required to police this.

#### **(b) Retention of SIVS dating and membership forms**

To obtain SIVS registration, you need to submit to TMR evidence from your club as to the vehicle's age and your current membership. These records are kept by the Department for 7 years and individual members should keep copies as well. There is no obligation on clubs to keep copies of these or records of those for whom they have been provided.

#### **(c) Road Test Radius**

At one of the 2 recent Qld Govt inquiries, there was a recommendation that the radius be extended to 50kms from the existing 15km radius, particularly for heavy vehicles. After extensive canvassing within TMR and beyond, it was decided to keep the radius at 15kms, on the basis that is a sufficient driving area within which to get a vehicle properly warmed up.

#### **Timed Events on Public Roads**

There was a question about what events would be legal and what wouldn't. What are banned are :

(a) Races between vehicles

(b) Record breaking attempts

(c) Any trial of the speed of a vehicle (I assume this means a top speed attempt)

(d) Any competition to test the skill of a driver, or the reliability or mechanical condition of any vehicle where the prize value exceeds \$100.

Permits can be obtained to conduct the above events. Conditions are strict, as is to be expected.

Timed events are OK provided there is no suggestion of incitement to break any road rules etc.

#### **Summary**

SIVS News: Continuing Club Membership Now Mandatory

Previously you only had to belong to a an incorporated vehicle club or association to obtain SIVS Registration for the first time, and many owners then allowed their club membership to lapse – while maintaining

SIVS registration. There is now a legal requirement to maintain membership of at least one club to have SIVS registration or use a SIVS registered vehicle. Penalties now apply and the SIVS Registration must be surrendered if membership lapses.

In addition to the penalties, both Third Party and Comprehensive Insurance entitlements may be put at risk if a SIVS-registered vehicle is involved in an accident and the registered operator's club membership has lapsed.

The obligation is on individuals, not clubs, to ensure continuing club membership.

The only exception is where an owner lives in a remote area or is unable to access an appropriate club, and they have obtained an exemption from the club membership requirement.
